AVVISO DI SEMINARIO

Il Dr. Daniele Mammoli

Project Adviser,
European Research Council Executive Agency, Brussels (BE)

il giorno 02/08/2024 alle ore 12:00
Nell' Aula seminari del Dipartimento di Scienze e Tecnologie Chimiche

Terrà un seminario dal titolo:

European Research Council info session

Proponente: Prof. Francesco Ricci

European Research Council info session

Daniele Mammoli

European Research Council Executive Agency, Brussels, BE

daniele.mammoli@ec.europa.eu

The European Research Council (ERC) is Europe's leading funding agency supporting excellent and investigator-driven frontier research across all fields of science.

ERC calls are open to applicants from all over the world and provide several outstanding funding opportunities with grant-budgets ranging from 1.5 to 3.5 million euro. All nationalities are welcome, provided that the projects are carried out at a host institution located in Europe (i.e. European Union Member States or the countries which have associated to the EU research funding programmes).

Since 2007, the ERC has financed ca 550 individual research projects in the field of Physical and Analytical Chemical Sciences¹, for an overall budget of €1026M.

In this informative session, the speaker will present the main features of the ERC individual grants (i.e. Starting, Consolidator, Advanced), together with general information on the application and evaluation process. Advice will be provided on relevant aspects such as identifying a solid idea and writing a successful proposal.

Finally, anybody from the audience will have the chance to ask questions.

This ERC session is particularly helpful to early-career and mid-career scientists who think about applying for funding to conduct breakthrough-research in Europe.
