meet Fondazione Amaldi*

Macroarea di scienze MM.FF.NN, Via della  
ricerca scientifica 1, 00133 Roma  
Wednesday 13 November  
Room T4 at 15:00  
Phisycs Department - UNITOV

The "CASSINI Hackathons & Mentoring" is the first action of the implementation of CASSINI, the European Commission initiative to support innovative entrepreneurs, start-ups and SMEs in the space industry, including New Space, in the period 2021-2027.

The CASSINI Hackathons are a series of weekend-long hackathons addressing global challenges with European space technologies. The theme of the 8th CASSINI HACKATHON is Security and Defence, so it is open to anyone interested in EU entrepreneurship, defence industry and space technologies and using one or a combination of tools.
